## Palletized Stone Program

**Palletized stone is the value-added version of loose stone.** It is sorted, staged, and presented so a yard, contractor, or homeowner can see the character and use the stone more efficiently. Pallet pricing reflects sorting, stacking, presentation, pallet handling, and grade quality.

**Grade A:** highest-quality material with the most character, best faces, best shapes, and strongest retail appeal.

**Grade B:** solid standard material suitable for most walls, steps, outcroppings, and landscape work.

**Grade C:** lower-character or more irregular material that still has practical use but less visual appeal.

Product / Size	A - Direct to Yard	B - Direct to Job Site	C - Homeowner / Consumer	Notes
<b>Palletized character / outcropping stone</b>	\$200-\$275/ton	\$150-\$200/ton	\$100-\$150/ton	Hand-selected limestone with strong shape, usable faces, and landscape character.
<b>Palletized natural steps / slab steps</b>	\$375-\$500/ton	\$275-\$375/ton	\$200-\$275/ton	Flat, usable step pieces. Higher grades have better shape, size consistency, and faces.
<b>Palletized laminated stacking stone / wallstone</b>	\$240-\$325/ton	\$175-\$240/ton	\$125-\$175/ton	Good for dry-stack walls, edging, retaining features, and garden walls.
